

### ***Teaching Multicultural Texts: Exploring the LIST Paradigm***

The overall goals of this project at USAFA are to assess the LIST Paradigm as a teaching tool that helps cadets access unfamiliar texts (due to a variety of reasons), to evaluate the activities and essay prompts developed to support the Paradigm, and to measure the impact of the LIST Paradigm on student performance and attitude. In order to achieve these goals, several ENG 211 instructors will use the LIST Paradigm in their Literature and Intermediate Composition course to teach three texts within the course.
