Who we are

We are a network of families and graduates from each of our five Service Academies.

Why we exist:

to help midshipmen and cadets and their families as they travel across the country and the world!

- Traveling to new assignments
- Traveling for leisure
- Encountering an emergency on the road

What we do

- We provide a place to stay
 - When traveling across the country
 - When there are missed flight connections
- We provide food
- We help with emergencies on the road
- We provide airport transportations

We are a sponsor family
on the road!

How it works

As a host you provide us your information and we add it to our list. We currently have about 700 families in the US and abroad. Each of our host families receives a link to the list.

When people request the list for travel we vet them to ensure they are academy affiliated. Then we send them the list.

The traveler contacts the hosts to see if it is convenient for them to stay. All arrangements are between traveler and host and not the admins of the list.

A voluntary program

You have the option of being a host or just getting the list for your families travel.

As a host you chose if and when you would like to host.
