

CE 351 Cadet Checklist

Checklist for OPS CEAF (USAFA and ROTC Cadets only):

- Security Clearances: every cadet is required to have an active secret clearance.
- OSI Intel briefing: All cadets visiting overseas bases must receive a Level-1 anti-terrorism threat briefing.
- Immunizations: Specifically, overseas locations require up to date immunizations and additional immunizations for your location. Make sure you verify with public health that you have the proper immunizations.
- Luggage: You are allowed two checked bags and one carry-on. Your bag weight may not exceed the airline standard of 50 lbs per bag. Keep this in mind if you are planning on buying souvenirs overseas!

All cadets will need the following items:

1. **Identification cards.** All cadets issued an ID cards are required to carry them at all times. Also, make a couple of photocopies of your ID card to give to your flight commander or a friend so that if you loose your ID card, you at least have some form of identification proof.
2. **Official travel orders:** You must obtain and carry with you at all times. If you are going overseas: you will be required to show a copy of your orders and military identification card at customs. You are not required to bring a passport as long as you have a military ID and official travel orders but if you have a passport, bringing a second form of identification for redundancy purposes is a good idea.
3. **Official Government Travel Card:** If cadets have been issued the government travel card, they are required to bring it with them on Ops AF. Your government travel card will be used to purchase airline tickets and your hotel room at a minimum.
4. **Current Physiological Training card** (altitude chamber) to the assigned Operation Air Force Base. Failure to bring the card may prohibit cadets from participating in flight activities during the program.

The following is taken from the CE 351 Cadet Handbook
