

Visiting Faculty Program

The U.S. Air Force Academy's Department of Physics is soliciting applications for visiting faculty.

The United States Air Force Academy is a unique military institution and undergraduate university located in the Colorado Springs foothills of the Rocky Mountains. It is led by a dynamic mix of civilian and military personnel with a shared dedication to educate, train, and inspire men and women to become officers of character, motivated to lead the United States Air Force in service to our nation.

The United States Air Force Academy's Department of Physics offers accredited Bachelor of Science degrees in physics and meteorology and a minor in nuclear science. Our department produces expertly educated leaders with the knowledge and skills necessary to solve unforeseen, abstract, complex, and ill-defined problems. We offer 35 courses, including two introductory and three advanced courses which fulfill core curriculum requirements, and outstanding research opportunities in five research centers (Laser and Optics Research Center, Space Physics and Atmospheric Research Center, Astronomical Research Group and Observatory, Center for Physics Education Research, and Center for Space Situational Awareness Research).

The Visiting Faculty Program aims to promote a rich diversity of perspectives to continually refine the Academy's pedagogical approach. We would love to have you join our team for a year!

Assignment dates:

1 July to 28 May (one academic year with one or two year extensions possible)

Application package due:

Mid October the year prior to assignment
