

USAFA,

Today, I would like to follow-up on several of the topics from our last All-Call on Thursday: Summer Programs, Stop Movement, and 10 ABW re-openings.

During the All-Call, I provided a list of Summer Programs that have been cancelled. In general, the programs that normally only take place during First Summer Period are cancelled altogether. Programs that would historically occur later in the summer may be impacted and/or postponed. Please see the attached lists for specific programs and events.

These lists are not all-inclusive. We will send out updates as we reach the decision points for the rest of the summer.

As you are aware, SECDEF has issued a continuation of the Stop Movement order, thru 30 June for domestic and international travel. There are several exemptions, and for unlisted circumstances I have delegated waiver authority to the first General Officer in your chain of command. See the attached Stop Movement Dashboard, otherwise follow this link to read the official guidance: https://mypers.af.mil/app/answers/detail/a_id/46605

Beginning 1 May, the 10 ABW will open the following facilities and services:

- * The Golf Course will open 1 May for online reservations only.
- * The Base Fitness Center will open to Active Duty members who live and work on USAFA. The number of personnel allowed inside the facility will be limited and the wear of a mask will be required at all times. The Pool, Sauna, Courts, Showers and Classes will not be available during this transitional period.
- * The Official-Business-Only rules will be revised to include commissary/exchange shopping, effective 1 May. All eligible members will be allowed to shop from 1200 to closing every day. The mornings will be designated for the elderly, cadets, and permanent party only.

If in doubt, the status of base services is available at www.usafasupport.com and FSS social media sites.

The State of Colorado is also moving to a "Safer At Home" policy; please follow the governor's orders regarding mask-wear and distancing. As businesses begin to reopen, limit your exposure. Historically, the second wave of a pandemic can be even more damaging, and several countries around the world have seen a resurgence of COVID-19.

Life will not be "back to normal" for a while. As we change our COVID-19 posture, both at USAFA and in the State of Colorado, maintain your vigilance and stay healthy!

While planning continues for the summer and Fall, no decision have been made. Please use original sources for information and avoid speculation and rumors. Understand that so much is uncertain that we need to consider all alternatives.

Stay healthy and stay connected. Thanks, JS
